Nisanth2003 (Nisanth Reddy Medapati)

## SUMMARY

Aspiring Full Stack Developer with a strong foundation in front-end and back-end technologies. Passionate about building scalable web applications, creating seamless user experiences, and solving complex problems. Eager to continuously learn and contribute to innovative projects.

## TECHNICAL SKILLS

- Technologies Stack:
  - HTML, CSS, JavaScript, REST API, React, Android(Kotlin)
- Data Management:
  - SQLite, Mongo DB
- Programming Languages:
  - C++, Java, JavaScript
- Platforms/Tools:
  - Postman, Figma

## CERTIFICATIONS

- |                                   |         |
|-----------------------------------|---------|
| • Application development in Java | Oct '23 |
| • Advanced Programming in Kotlin  | Sep '23 |
| • AI For Everyone                 | May '23 |
| • JAVA Backend Development        | Jun '24 |

## POWER SKILLS

- Teamplayer
- Communication
- Adaptable
- Quick learner

## EXTRA CURRICULAR ACTIVITIES

- Part of various Student Organized Events at LPU
- Played in interschool football competition leading the team to a runner-up finish in a competitive interschool tournament.

## PROJECTS

- Real-Time Sub-Object Detection** Oct '23
  - Technologies used : Python,Yolo
  - Designed and developed a real-time sub-object detection system for image and video analysis.
  - Implemented Python and OpenCV for image processing and data handling, ensuring smooth real-time performance.
  - Added functionality to extract and store detected object details in JSON and Excel formats for further analysis.
  - Enabled support for sub-object detection and classification within identified parent objects.
  - Ensured modularity and reusability of code, allowing seamless integration into larger projects or systems.

- Twitter-Clone** Sep '23
  - Technologies used : Html, Css , JavaScript, React Js,Fire base,Devops
  - Developed a full-stack Twitter-like application enabling users to post tweets, follow others, and interact seamlessly.
  - Built a dynamic and responsive frontend using **React.js**.
  - Integrated **Firestore** for secure user login and **Firestore** for real-time database management.
  - Implemented **DevOps practices**, including **CI/CD pipelines**, for automated builds and deployments, ensuring smooth updates and maintenance.
- Link:-<https://github.com/Nisanth2003/my-twitter-clone>
- GameLauncher** Mar '23
  - Technologies used : Java,Swing(Library)
  - Developed a comprehensive game launcher application featuring three distinct games: World Map, Tic Tac Toe and Snake Game.
  - Designed and implemented the user interface for the game launcher, ensuring intuitive navigation between games.
  - Developed the World Map game, providing interactive features for users to explore various regions.
  - Implemented the classic Snake Game, focusing on smooth gameplay and responsive controls.

## ACHEIVEMENTS

- Completed 100+ Problems on GeeksforGeeks
- Demonstrated strong problem-solving skills by successfully solving over 100 coding problems on GeeksforGeeks,.
- Co-Member Of Management for Kaladhara LPU:
  - Orchestrated events and led a cross-functional team's initiative.
- Interschool Football Competition :
  - Contributed to the overall success of the team by providing strong performance and collaboration throughout the tournament.

## EDUCATION

|                                       |                   |
|---------------------------------------|-------------------|
| Bachelors of Computer Science(Honors) | Oct '21- May'25   |
| Lovely Professional University        |                   |
| CGPA- 7.56 (7th Semester)             |                   |
| 12th Standard                         | Jun '19 - Mar '21 |
| Sri Chaitanya Bhaskar Bhavan          |                   |
| Percentage - 90.4%                    |                   |
